

FutureTech University

Student Handbook

Academic Year 2026-2027 | Issued by the Office of the Registrar | Effective September 1, 2026

This handbook is the primary reference for student rights, responsibilities, and general academic policy at FutureTech University. It should be read alongside the university's other governing documents: [admission_guide.pdf](#) (admissions), [tuition_policy.pdf](#) (fees and payments), [academic_regulations.pdf](#) (grading and exams), and [library_rules.pdf](#) (library services). Where this handbook references a specific rule covered in more detail elsewhere, the relevant document is cited.

1. University Overview

FutureTech University (FTU) was founded in 1998 and is located at 123 Innovation Boulevard, New Cairo Innovation District. The university's motto is "Engineering Tomorrow, Today." FTU is organized into eight academic departments: Computer Science; Artificial Intelligence & Data Science; Electrical & Electronics Engineering; Mechanical Engineering; Business Administration; Architecture & Design; Biomedical Engineering; and Mathematics & Basic Sciences. A full description of each department, including office locations and hours, is provided in [departments.docx](#).

The university's main campus spans six buildings: Building A (Engineering Complex), Building B (Science & Computing Center), Building C (Business & Humanities Center), Building D (Design Studio Complex), the Library Building, and the Student Center. FTU is led by the President's Office, supported by the Office of the Provost (academic affairs), the Office of Student Affairs (student life and conduct), and the Financial Office (tuition and billing).

FTU currently enrolls approximately 6,400 undergraduate students and 480 graduate students across its eight departments, with a total faculty of over 300 members, including full-time professors, associate and assistant professors, lecturers, and teaching assistants.

2. Student Rights

All students enrolled at FutureTech University are entitled to the following rights, which the university is committed to upholding:

- The right to fair, consistent, and unbiased academic evaluation, including access to the Appeals Process described in [academic_regulations.pdf](#), Section 8, if a student believes a grade was assigned unfairly.
- The right to freedom of expression and peaceful assembly, exercised within the bounds of the Student Code of Conduct described in Section 5 of this handbook.
- The right to privacy regarding academic records, in accordance with the university's Student Records Privacy Policy, available on request from the Office of the Registrar.
- The right to a safe and harassment-free learning environment, with access to confidential reporting channels through the Office of Student Affairs (see [campus_services.docx](#), Section 2).
- The right to participate in student governance through the Student Union and recognized student organizations.

- The right to access academic advising, library resources, career counseling, and health services as described in [campus_services.docx](#) and [library_rules.pdf](#).
- The right to reasonable accommodation for documented disabilities, coordinated through the Office of Student Affairs in consultation with the Accessibility Services Coordinator.

3. Student Responsibilities

In turn, students are expected to uphold the following responsibilities throughout their time at FutureTech University:

- Maintain regular attendance in all enrolled courses, in accordance with the Attendance Policy in Section 4 of this handbook.
- Uphold academic integrity at all times, including proper citation of sources and independent completion of individually assigned work.
- Comply with the Student Code of Conduct described in Section 5 of this handbook.
- Meet all tuition and fee payment deadlines described in [tuition_policy.pdf](#), or arrange an approved installment plan in advance.
- Keep contact information (address, phone number, emergency contact) up to date on the student portal.
- Treat faculty, staff, and fellow students with respect, and report any violations of the Code of Conduct through appropriate channels rather than resorting to self-help remedies.
- Review official university communications, including announcements published through the student portal (see [announcements.txt](#) for examples of recent official notices).

4. Attendance Policy

Regular class attendance is mandatory at FutureTech University. Instructors are required to take attendance at every class session, including lectures, labs, and studio sessions.

4.1 Maximum Absences

Students may not exceed 20% unexcused absences in any single course during a semester. For a course that meets twice weekly across a 15-week semester (30 sessions), this means a student may miss no more than 6 sessions without an approved excuse. Exceeding this limit results in an automatic "WF" (Withdrawn-Failing) grade for the course, regardless of academic performance, as further detailed in [academic_regulations.pdf](#), Section 3.

4.2 Excused Absences

Absences may be excused for documented medical emergencies, family emergencies, university-sanctioned activities (such as representing FTU in an academic or athletic competition), or religious observances. Students must submit supporting documentation to the course instructor and copy the department office within 5 working days of returning to class.

4.3 Attendance and Final Exam Eligibility

Students who exceed the maximum absence threshold are not eligible to sit the final exam for the affected course. See [academic_regulations.pdf](#), Section 5, "Final Exams," for further eligibility requirements, including outstanding tuition balances.

5. Student Code of Conduct

The Student Code of Conduct governs the behavior expected of all FutureTech University students, on campus and at university-sponsored events.

5.1 Academic Integrity Violations

- Cheating on examinations, quizzes, or assignments.
- Plagiarism, including submitting another person's work as one's own or improperly citing sources.
- Fabrication or falsification of data, research results, or academic records.
- Unauthorized collaboration on individually assigned work.
- Facilitating academic dishonesty by another student.

5.2 General Conduct Violations

- Harassment, bullying, or discrimination against any member of the university community.
- Physical altercations or threats of violence.
- Damage to or theft of university property or the property of others.
- Unauthorized access to, or misuse of, university computing systems and networks (see also the IT Acceptable Use Policy, available from IT Support as described in [campus_services.docx](#), Section 1).
- Possession or distribution of prohibited substances on campus.
- Unauthorized use of the university's name, logo, or facilities for commercial purposes.

5.3 Disciplinary Process and Sanctions

Reported violations are investigated by the Office of Student Affairs. Sanctions range from a written warning, to probation, to suspension, to expulsion, depending on the severity and frequency of the violation. Students found responsible for academic dishonesty in a given course will, at minimum, receive a failing grade for the affected assignment or exam, with more serious or repeated violations resulting in a failing grade for the course and a disciplinary record. A scholarship recipient found responsible for a Code of Conduct violation will also have their scholarship revoked immediately, as described in [scholarship_info.txt](#), Section 4.

6. Graduation Requirements

To graduate from FutureTech University, students must satisfy all of the following requirements:

- Completion of all required credit hours for the declared major. Credit hour requirements range from 132 credit hours (Business Administration) to 152 credit hours (Engineering and Architecture programs), depending on the program.
- A cumulative Grade Point Average (GPA) of at least 2.0 on the 4.0 scale described in [academic_regulations.pdf](#), Section 1.
- Successful completion of a graduation project or capstone course in the final year of study, as defined by the student's department.
- For most Engineering, Business, and Architecture programs, completion of an approved internship of at least 6 weeks, coordinated through the Career Center (see [campus_services.docx](#), Section 7).
- No outstanding disciplinary sanctions that include a hold on graduation.
- No outstanding tuition balance, as verified by the Financial Office (see [tuition_policy.pdf](#), Section 5, regarding registration and clearance holds).

Degree conferral occurs twice yearly, following the Fall and Spring semesters. Students expecting to graduate must file an Intent to Graduate form with the Office of the Registrar no later than the end of the add/drop period of their final semester.

7. References to Other University Policies

This handbook works in conjunction with the following university policy documents, which together form the complete set of academic and administrative regulations at FutureTech University:

Document	Covers
admission_guide.pdf	Admission requirements, required documents, application deadlines, and the admission process
tuition_policy.pdf	Tuition fees, payment methods, installment plans, refunds, and late payment penalties
academic_regulations.pdf	GPA system, grading scale, academic probation, withdrawal policy, exams, and appeals
library_rules.pdf	Library services, borrowing rules, opening hours, and study room reservations
scholarship_info.txt	Scholarship types, eligibility, required GPA, and renewal rules
departments.docx	Department descriptions, office locations, and department office hours
faculty_contacts.docx	Individual faculty contact information and office hours
campus_services.docx	Non-academic support services including IT, health, housing, and career services

Note: In the event any other university document appears to conflict with this handbook on a matter of student conduct or graduation requirements, the most recently issued version, as confirmed by the Office of the Registrar, takes precedence. Students with questions about which policy applies to their situation should contact the Office of Student Affairs at studentaffairs@futuretech.edu.eg or +20 2 2589 3050.
